(58) International Classification of Diseases, Ninth Revision (ICD-9) Diagnosis Codes (Professional)

Prior to June 6, 2005, the IHCP ignored ICD-9 diagnosis codes submitted beyond the fourth ICD-9 diagnosis code (HI05 through HI08 of Health Care Diagnosis Code segment) on the 837P transaction. As of June 6, 2005, the IHCP captures and edits the maximum number of ICD-9 diagnosis codes supported by the [Companion Guide: 837 Professional Claims and Encounters Transaction](#). All diagnosis codes are edited by the system for validity. An invalid diagnosis code causes the service line of the claim to deny. The IHCP allows four diagnosis code pointers (SV107-1 through SV107-4) on the service line to point to any of the eight claim level diagnosis codes.

Vendor Testing Start Date: May 01, 2005

Production Release Date: June 6, 2005

Impact

837P

Refer to the [Companion Guide– 837 Professional Claims and Encounters Transaction](#) that reflects the modifications as they are implemented.
