## **(697) Denial of Crossover Denied Details (Updated 01/17/2006)**

Effective December 29, 2005, the System recognizes and denies the Medicare service lines on outpatient (non-facility) and medical crossover claims and eliminates the need for providers to adjust the crossover claim.

Prior to December 29, 2005, for Medicare outpatient (non-facility) and medical crossover claims, Medicare sent denied service lines. IndianaAIM did not recognize the denied service lines on an otherwise paid claim. To obtain Indiana Health Coverage Programs (IHCP) payment for these denied service lines, providers sent an adjustment request for the IHCP to deny the Medicare-denied service lines. Then, the provider submitted a new IHCP claim for the denied service lines.

As instructed in [Companion Guide: 837 Institutional Claims and Encounters Transaction](#) and [Companion Guide: 837 Professional Claims and Encounters Transaction](#), providers must submit the Medicare amounts (including Medicare amount paid, coinsurance, and deductible) at the service line for Medicare outpatient (non-facility) and medical crossover claims. Service lines sent without this information will be considered denied by Medicare, and therefore, denied by the IHCP.
