Occurrence Code Acceptance on 837I

Effective October 16, 2003, HIPAA requirements discontinued the use of State-assigned occurrence codes 50 through 69. In the interim, the IHCP continues to use these non-HIPAA compliant codes on UB-92 paper claim forms and 837I electronic transactions until an alternative method of processing claims requiring these codes has been established. The IHCP is establishing new billing requirements for claims affected by the elimination of these codes. The IHCP will notify providers of the new billing requirements when they are established.
